

DINNER AT THE PANDA PALACE

www.stephaniecalmenson.com

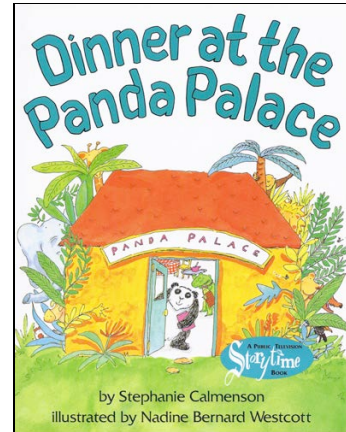

Math Page

The restaurant was humming.

The waiters moved fast.

Feeding fifty five diners

Was no easy task.

Counting on pages 22 - 23:

Ask children to count the number of tables.

Ask children to count the number of diners at each table.

Ask children to count all the diners on these two pages.

For children who are able to add, have them add the diners at each table -- $1 + 2 + 3$ etc. -- to see if they get to 55.

How many animals are there on these two pages?
(Answer: 58, including Mr. Panda and 2 alligator waiters.)

Shapes on pages 4 - 5:

What shape are the dinner plates? [Circles]

What shape are the napkins? [Triangles]

What shape is elephant's suitcase? [Rectangle]

What shapes are on the pattern of the tablecloths? [Squares]
